

## FOR IMMEDIATE RELEASE

### **Dresser Wayne® Shows Unattended Payment Terminal Solution at NACS 2009**

Upgradeable Solution Supports Next-Generation Security Standard

**AUSTIN, Texas (October 22, 2009)** - Dresser Wayne ([www.DresserWayne.com](http://www.DresserWayne.com)), a global innovator of fuel dispensers and technologies, previewed the Unattended Payment Terminal (UPT) configuration of the iX™ Pay Secure Payment platform at the National Association of Convenience Stores (NACS) show in Las Vegas this week. This UPT configuration helps fuel retailers achieve the next level of security at the fuel dispenser.

“Building on our iX Pay Encrypting PIN Pad (EPP) offering, retailers can further enhance the security of the entire fuel dispenser payment terminal,” said Tim Weston, product manager for payment technology at Dresser Wayne. “Our upgradeable iX Pay solution has been designed to allow retailers to leverage their EPP investment when they move to next-generation security standards, like UPT.”

The Dresser Wayne iX Pay solution addresses the Payment Card Industry (PCI) UPT specification using a secure card reader, user prompt controls, and application software authentication, in addition to a secure key pad.

More information is available at the Dresser Wayne booth #4467 at the Las Vegas Convention Center.

## **About Dresser, Inc.**

Dresser, Inc. is a global leader in providing highly-engineered infrastructure products for the global energy industry. Leading brand names within the Dresser portfolio include Dresser Wayne retail fueling systems, Waukesha<sup>®</sup> natural gas-fired engines, Masoneilan<sup>®</sup> control valves, Consolidated<sup>®</sup> pressure relief valves, and ROOTS<sup>®</sup> rotary gas meters and blowers. The company has manufacturing and customer service facilities strategically located worldwide and a sales presence in more than 100 countries. The Dresser Web site is [www.Dresser.com](http://www.Dresser.com).

## **About Dresser Wayne**

Dresser Wayne, headquartered in Austin, Texas, is one of the largest business units of Dresser, Inc., and is an industry pioneer in the retail fueling industry. Among its innovations, Dresser Wayne was the first to introduce self-service consoles and fuel blending dispensers to service stations, in-pump card readers and cash acceptors, in-pump radio frequency identification payment systems and dispenser-mounted touch screen payment/communication systems. In addition, Dresser Wayne designs and markets software systems that enable its retail fueling customers to manage the convenience store aspects of their business more efficiently, including inventory control, price book management, labor management and site administration. The Dresser Wayne Web site is [www.DresserWayne.com](http://www.DresserWayne.com).
