

**FOR IMMEDIATE RELEASE**

**DRESSER MASONEILAN<sup>®</sup> SELECTED AS MAINTENANCE, REPAIR AND OPERATIONS PROVIDER FOR SHELL EASTERN SINGAPORE PETROLEUM**

*Five-year service contract includes control valve servicing, smart diagnostics for positioners and valve database management in partnership with OSA Valve Services*

**HOUSTON** (March 22, 2010) – Dresser Masoneilan<sup>®</sup> today announced that it has been named the maintenance, repair, smart diagnostics and operations provider for Shell Eastern Singapore Petroleum in partnership with OSA Valve Services Pte Ltd.

Shell's investments in Singapore include an integrated refinery and petrochemical project comprising a new world-scale ethylene cracker on Bukom Island, a world-scale Mono-Ethylene Glycol (MEG) plant on Jurong Island and enhancements to the existing Bukom refinery. The Bukom refinery, with a capacity of 500,000 barrels per day, is the largest Shell refinery in the world in terms of crude distillation capacity.

As part of the five-year service contract, Dresser Masoneilan and OSA Valve Services will provide control valve servicing; smart diagnostics for all pneumatic, electro-pneumatic and digital positioners; and valve database management at all Shell plants in Singapore.

“Dresser Masoneilan has a proven track record of providing responsive and reliable support to customers through our Masoneilan Authorized Repair Center (MARC<sup>®</sup>) facilities,” said Eric Strecker, vice president of sales in Asia Pacific region for Flow Technologies Segment of Dresser Inc. “Working together with our partners, in this case OSA Valve Services, we developed a service solution offering for Shell that is best-suited to their business requirements.”

Dresser Masoneilan is one of a few control valve suppliers in the world that can comply with the full scope of products required for conventional and unconventional oil production. Through its global network of Masoneilan Authorized Repair Center (MARC<sup>®</sup>) and Dresser Direct fully equipped aftermarket facilities, Dresser Masoneilan provides around-the-clock access to the factory-certified technicians, extensive inventory of genuine Dresser Masoneilan valves and parts, and valve management and maintenance services at the local level. MARC and Dresser Direct facilities offer a complete array of services and tools to help customers keep their valves operating at peak performance, including [ValScope<sup>®</sup> Pro](#) diagnostic system; [ValvKeep<sup>®</sup>](#) valve maintenance and management software; [ValVue<sup>®</sup> OVD](#) (online valve diagnostic) software suite; Hot Swap replacement of positioners; facility-wide valve inventory and assessment; maintenance planning and prediction, asset control and records, and application assistance; turnaround planning; commissioning and start-up services; and valve life extension through refurbishment, upgrades and optimization.
