

FOR IMMEDIATE RELEASE

Dresser Wayne Achieves OHSAS 18001 Certifications for Health and Safety in Czech Republic and Slovakia

Certifications aid fuel dispenser and forecourt technologies provider in focus on sustainability practices in the growing Central and Eastern Europe region

LONDON (March 30, 2010) – Dresser Wayne (www.DresserWayne.com), a global leader in vehicle energy dispensing technologies, has achieved Occupational Health and Safety Advisory Services OHSAS 18001 certification at its locations in the Czech Republic and Slovakia. The 18001 standard has provided a framework for establishing a management system to track and continually improve worker health and safety.

The facilities in Central and Eastern Europe join locations in Western Europe and the United States that have previously been certified according to OHSAS 18001 and the Safety Health and Environment Checklist for Contractors, or SCC.

“The OHSAS 18001 certification and our safety management systems are key in our local and global environmental, health and safety practices,” said Neil H. Thomas, Global President, Dresser Wayne. “They help us in establishing sustainability best practices as our capabilities in Central and Eastern Europe grow.”

OHSAS 18001 joins the additional Dresser Wayne certifications including the International Standards Organization ISO 14001 certifications for environmental stewardship achieved in 2009 and early 2010.

###

About Dresser, Inc.

Dresser, Inc. is a leader in providing highly engineered infrastructure products for the global energy industry. The company has leading positions in a broad portfolio of products including valves, actuators, meters, switches, regulators, piping products, natural gas-fueled engines, retail fuel dispensers and associated point of sale systems and air and gas handling equipment.

Leading brand names within the Dresser portfolio include Dresser® Wayne® retail fueling systems, Waukesha® natural gas-fired engines, Masoneilan® control valves, Mooney® regulators, Consolidated® pressure relief valves, and Roots® blowers and rotary gas meters. It has manufacturing and customer service facilities located strategically worldwide and a sales presence in more than 100 countries. www.Dresser.com
