

**FOR IMMEDIATE RELEASE****Dresser Wayne joins PCI Security Standards Council as newest Participating Organization**

***—Dresser Wayne to participate in key standards setting body protecting payment cardholder data—***

**Austin, TX (March 5, 2008)** — Dresser Wayne, a leading fuel dispenser manufacturer recognized for its innovation in convenience store payment technology, announced today that it has joined the PCI Security Standards Council as a new participating organization. As a Participating Organization, Dresser Wayne will work with the Council to evolve the PCI Data Security Standard (DSS) and other payment card data protection standards.

The PCI DSS, endorsed by American Express, Discover Financial Services, JCB, MasterCard Worldwide and Visa Inc., requires merchants and service providers that store, process or transmit customer payment card data to adhere to information security controls and processes that ensure data integrity. More information on the council and the standard can be found at [www.pcisecuritystandards.org](http://www.pcisecuritystandards.org)

As a Participating Organization, Dresser Wayne will now have access to the latest payment card security standards from the Council, be able to provide feedback on the standards and become part of a growing community that now includes more than 400 organizations. In an era of increasingly sophisticated attacks on systems, adhering to the PCI DSS represents an entity's best protection against data criminals. By joining as a Participating Organization, Dresser Wayne is adding its voice to the process.

"The PCI Security Standards Council is committed to helping everyone involved in the payment chain protect consumer payment data," said Bob Russo, General Manager of the PCI Security Standards Council. "By participating in the standards setting process, Dresser Wayne demonstrates they are playing an active part in this important end goal."

"As the issue of protecting consumer information becomes increasingly complex, the council's standards are expanding beyond the scope of data security to include consumer payment technology, such as PIN entry devices," Dresser Wayne Payment and Security Product Manager, Tim Weston, explained. "With product offerings that include in-dispenser secure payment technology and our Nucleus Point-of-Sale system, Dresser Wayne welcomes the opportunity to serve as a representative

of the retail petroleum payment segment. Our involvement will help us deter fraud and theft by sharing retailers' concerns and by gaining the necessary insight to quickly implement the council's standards."

#### **About PCI Security Standards Council**

The mission of the PCI Security Standards Council is to enhance payment account security by fostering broad adoption of PCI security standards. For more information, please visit [www.pcisecuritystandards.org](http://www.pcisecuritystandards.org)

#### **About Dresser, Inc.**

Dresser, Inc. is a leader in providing highly engineered infrastructure products for the global energy industry. The company has leading positions in a broad portfolio of products including valves, actuators, meters, switches, regulators, piping products, natural gas-fueled engines, retail fuel dispensers and associated retail point of sale systems and air and gas handling equipment. Leading brand names within the Dresser portfolio include Dresser Wayne® retail fueling systems, Waukesha® natural gas-fired engines, Masoneilan® control valves, Mooney® regulators, Consolidated® pressure relief valves, and Roots® blowers and rotary gas meters. It has manufacturing and customer service facilities located strategically worldwide and a sales presence in more than 100 countries. The company's website can be accessed at [www.dresser.com](http://www.dresser.com).

#### **About Dresser Wayne**

Dresser Wayne, headquartered in Austin, Texas, is one of the largest business units of Dresser, Inc., and is an industry pioneer for the retail fueling industry. Among its innovations, Dresser Wayne was the first to introduce self-service consoles and fuel blending dispensers to service stations, in-pump card readers and cash acceptors, in-pump radio frequency identification payment systems and dispenser-mounted touch screen payment/communication systems. In addition, Dresser Wayne designs and markets software systems that enable its retail fueling customers to manage the convenience store aspects of their businesses more efficiently, including inventory control, price book management, labor management and site administration. The Dresser Wayne website is [www.dresserwayne.com](http://www.dresserwayne.com).
